

PRESSURE GAUGES - GLYCERINE FILLED BACK CONNECTION - STAINLESS STEEL CASED

APPLICATION : Measurement of the pressure of fluid liquids or gases up to 25 bar that are not highly viscous, subject to crystallisation or corrosive to copper or tin alloys. Particularly suitable for applications where oscillating or surge pressures are present and for mounting on equipment subject to severe vibration. Designed for panel mounting bracket or 3 hole mounting flange.

SPECIFICATION : **Case and bezel :** stainless steel AISI 304. **Window :** shatter resistant acrylic. **Damping Liquid:** bidistilled glycerine. **Connection :** brass. **Sensitive element :** bronze Bourdon tube or chrome molybdenum steel tube depending on pressure range. **Mechanism :** high precision watchmakers brass. **Joints :** soldered in tin alloy or silver alloy for pressure above 60 bar. **Indicator :** tempered steel. **Dial :** stoved enamel on aluminium. **Accuracy :** class 1. **Scale :** bar (outer) + psi (inner).

PRICES : Please note that prices shown are the current list price for each gauge or product. OEM and re-seller discounts are available together with progressive quantity discounts.

150mm (6") diameter, Lower back connection, 1/2" BSP parallel thread, Dual Scale : bar+psi. All stainless steel construction, Class 1 accuracy, heavy duty.

Panel Mounting Bracket

These Ø 150 gauges can be supplied with a **panel mounting bracket**.

Please add the letter "S" to order code.

Additional price for bracket
Ø 150 £8.95 Code 914 989 22

Stainless Steel 3 Hole Front Flange

These Ø 150 gauges can be supplied with a **3 hole front flange**.

Please add the letter "**F**" to order code.

Additional price for front flange

Ø 150 £12.50 Code 914 989 05
