

CALIBRATION CERTIFICATES / REPAIR SERVICE

Calibration certificates can be supplied on customer gauges and / or on new gauges supplied. These can be Standard Certificates, Point to Point Certificates, UKAS Traceable Certificates or Full Namas Certification depending on customer requirements. All certification is traceable to National Standards.

We also offer a full re-calibration and repair service although in many cases it can be more economical to replace rather than repair.

Please contact us for further information or quotation.
